With help from Lock, Shock, and Barrel, Oogie successfully TEENnapped the real leaders and imprisoned them in the Oogie Corridor, a series of treacherous subterranean caverns teeming with lava and booby traps. "Tim Burton's The Nightmare Before Christmas: Oogie's Revenge Critic Reviews for Xbox". Metacritic. Retrieved 2013-12-08. Oogie's Manor is a Disney boss original to the Kingdom Hearts series. After Oogie Boogie is defeated for the first time in Kingdom Hearts, he'll fuse with his manor to create a giant boss. In this form, Oogie is completely immobile, but also invulnerable to any of the party's attacks. His weak spots are the dark orbs surrounding his body and the only way to defeat him is to destroy

them all. Hanging from Oogie's body are large magic lanterns which will shoot fire at the player as he scales Oogie's body. In this form, his Heartless summoning capabilities have also been greatly increased. He will be able to summon far more than he once could. When all the orbs are destroyed, Oogie will perish. Oogie Boogie is a wicked and voraciously power hungry creature, resembling a large burlap sack shaped like a starfish. Inside of him are thousands of bugs (along with 2 spiders and a snake). His life revolves around gambling, and loves gambling with others' lives. Though, ironically, Oogie has no skills for gambling; on one occasion he rolls snake eyes, and confesses he has to resort to deceiving - he slams his fist upon the table to shake the dice, resulting in eleven. Gambling is really only for theatrics, as Oogie actually takes joy in orchestrating situations with his victims in order to empower himself. Oogie Boogie did not appear in Tim Burton's original Poem, but Burton later sketched a portrait of what appeared to be a potato sack man with horrible things inside. In his autobiography *Burton on Burton*, Burton says that Oogie Boogie was loosely inspired by Cab Calloway's 1932 appearance in a Betty Boop cartoon. In addition to this, Danny Elfman ended up referencing the Betty Boop cartoon *The Old Man of the Mountain* (1933), also featuring Calloway. Santa Claus' line "Well, what are you going to do?" and Oogie Boogie's response of "I'm gonna do the best I can!" are direct quotes from this cartoon. An alternate idea for Oogie's identity was for him to be Dr. Finkelstein in disguise, gaining revenge on Jack and Sally, but it was not pursued past storyboards, this is visible on the Special Edition DVD. Mega Oogie is the form Oogie takes to make his last stand in the game *The Nightmare Before Christmas: Oogie's Revenge*. After chasing Oogie through both Halloween and Christmas Town, Jack finally corners Oogie in an old dump. Angered, Oogie tries to put up a fight, he summons all the bugs in the dump and using the resources from the nearby trash piles to turn in to a giant trash filled version of himself. Mega Oogie is ten stories tall and very strong. He has the power to shoot out the various pieces of garbage he is made up of either by spitting it out of his mouth or by just ejecting them from various parts of his body, such as his arm. His weak spot is his head if Jack strikes his feet enough times he will fall and his head can be struck. Being made from garbage, he is also flammable.

Adaptation Expansion: Nightmare was originally a poem by Burton, with the only named characters being Jack, Zero, and Santa. Jack instructs the mayor to free the other Holiday Leaders, then heads to the Hinterlands, having a heartfelt moment with Sally before navigating the mystic forest to replace the Holiday Doors on their trees. Halfway through the process, Jack fights Oogie's two strongest monsters and claims the Christmas Door from them, using it to leave for Christmas Town as soon as he finishes. Granted, this is meant to be a fairy tale. **The Nightmare Before Christmas (2013) - A Picture Book** based on the original poem. Unlike all the other inhabitants of Halloween Town, who are merely docile monsters who scare people simply as a celebration of their skill and for fun, Oogie's concept of fear is different. It is suggested that his sadistic nature had resulted in his exile from the mainstream Halloween Town, although he is permitted to participate in the 'This is Halloween' music number as the shadow on the moon. **Handcrafted sculptural cuckoo clock** features Jack Skellington, Sally, LED lighting, beloved movie music, Zero popping out on the hour and much more. **Big Damn Heroes: "Hello, Oogie!"** Badass. It's unusual that you have a BDH moment where the bad situation is the hero's fault in the first place, but even so. **Bizarre Alien Locomotion:** One odd little Halloween Town demon "walks" on the tips of its long bat-like wings, with its plump short-legged body suspended between them. **Tim Burton's "The Nightmare Before Christmas" Wall Clock.** **Big Entrance:** The song "This is Halloween" is ostensibly a description of the nature of Halloween Town, but its real purpose in the film is to build up to Jack's grand
